

AIRTEMP A C LIMITED

QUALITY POLICY

Aim: It is the aim of the quality policy of Airtemp AC Limited to provide consistent high quality material testing solutions and services, which satisfy customer's requirements and expectations.

The quality management system has been established to fulfil this requirement and ensure compliance to industry related standards, legislation and internationally recognised standards of approval.

Scope: The policy applies to all employees.

The executive management team are committed to:

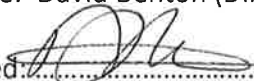

- Maintaining a quality management system that not only meets the criteria of the HVCA but adds measurable value to the company
- Setting realistic and measurable quality objectives
- Leading an organization wide philosophy of continual improvement
- Providing the appropriate resources necessary for the achievement of quality
- Equipping employees with the competencies necessary to achieve their objectives

In order to support this commitment, the executive management team will:

- Acquire customer and market feedback to develop value added material testing solutions and services
- Monitor and measure process outputs and customer perception in order to continually improve the effectiveness of the quality management system
- Maintain evidence to demonstrate process conformance

The person named below has overall responsibility for dealing with Quality Policy.
